

Yoga School Application **200hr Teacher Training Program** **& Yoga Immersion Track**

Namaste. We are so glad that you are considering applying to one of Blue Banyan Yoga School's two exciting programs of study: Teacher Training or the Yoga Immersion Program! Obviously you are drawn to something in the practice and experience of Yoga that drives you to a deeper exploration and even toward the possibility of teaching. We are honored that you are considering Blue Banyan to be the school that might guide that transformation. Thank you.

Now...take a deep breath...We have intentionally crafted an application of great magnitude – one that will demand much of you. We do not expect you to already know the answer to every one of these questions. We do, however, expect you to answer each as honestly and completely as you can, and in some cases, take the time and spend the energy to find out the things you do not already know. The modern yogi(ni)-in-training must use all things at his/her disposal – ask friends, ask teachers (not Sophie or Jake), consult books, surf the internet...use your resources...but please take the time to answer the questions to the best of your ability.

And know that we are primarily concerned with your curiosity, your work ethic, and your exposure to the breadth of yogic topics that will be explored throughout the course of this program (not that you've got all the facts down). You should also feel free to present this application in a way that reflects your own personality, creativity and energy.

In addition to the completion of this application, all applicants need a minimum of 2 years of regular practice. Prospective students are also expected to take at least one class with both Sophie and Jake. (At which time, please note that you are doing so in pursuit/investigation of a Yoga School Program).

The schedule and application deadline for both programs is posted on the Training Page of our website. Please note that space is limited for BOTH programs.

Please include the following information at the top of your application.
